2003-24

Piano the Natural Way With Key Maps

by John M. Honeycutt

This Book Belongs To:

[Empty yellow box for name]

Organizing Your Binder

The pages of this unit are designed to be PRINTED ON BOTH sides, 3-hole punched and placed into a 3-ring view binder. The binder will house (A) a set of 5 tab dividers, (B) the pages of this present unit, and (C) your MIW instructional materials and sheet music.

Here's the general plan for keeping track of your musical units: As you acquire new units of music and instruction, you place them in an appropriate section of the binder. The study units for beginning piano students go into the first tabbed section: Tab 1 - Keyboard Studies. The other units go into tabbed Sections 2 thru 5, according to each new unit's contents.

Needing More Space. When you have filled the binder and have no room for more units, you can split the library into 2 binders by moving pages and dividers to the second binder. Further splits can be made when space is needed. When you split pages into another binder, you will probably want to move entire sections into the new binder.

Printing and Materials. These instructions assume that you have printed this unit on both sides of the page, just as you should do for all of our materials. You will need a 3-ring view binder and a 3-hole punch so that you can insert the pages into the binder. You will also need a set of 5 tab dividers. This present Unit provides front and back cover pages, these instructions, and 5 contents pages.

Assembling the Binder. This involves placing the 5 tab dividers into the binder, and then placing the pages of this unit in their proper locations within the front and back covers and in the binder. You will just place each page in the location described at the top of each page. If you'd like detailed instructions, see the next paragraph.

Tab 1 - Place the "Music Library Contents" page (Page 3) in front of the first tab divider and the "Basic Keyboard Skills page (Page 5) following that divider. - **Tab 2** - Place the "Numbered Collections" page following the Tab 2 divider. **Tabs 3, 4, and 5** - Place each of the remaining 3 section identifier pages following its corresponding tab divider. Finally, insert the **cover page** (with these instructions on its back side) into the front cover window of the view binder, and the **back cover page** into the back cover window. This completes the assembly of the binder. Insert the the sheet music and instructions into the binder according to their content.

Place AHEAD OF TAB 1.
